

Mass Heating Machine

Key Features

-  Uniform Automatic Temperature Control
-  Multi-Station Heating & Monitoring
-  Latest PLC & HMI Based Control Panel
-  Real Time Data Monitoring
-  Rejection Bin Interlock
-  Automatic Safety Interlocks
-  Safety Category 4 Light Curtain
-  Easy Operation & Maintenance
-  Upper and Lower both side heaters for uniform and fast heating
-  Individual Heaters and Individual Sensors on all 16 heating plates
-  Poka-Yoke - Individual Optical Sensors for metal part presence
-  Temperature Sensor open short detection
-  Rejection bin if any case the part temperature not reached to desired limit
